Usman Qadri

F R O N T - E N D D E V E L O P E R

PERSONAL PROFILE

I am a self-taught developer. I learned how to code through various platforms, like Udemy and Scrimba. I have a proficient grasp of Javascript and React and hold a keen interest in front-end web development.

In the past years, I explored interests outside of tech, yet all the while, maintained a strong connection by building projects using what skills I've learned and continue to hone. I genuinely enjoy problem-solving and am eager to developing my skills forward.

EDUCATION

Bachelors in Near Eastern Languages and Civilizations from Yale University (2018)
